

Titan 6

Titan 6 is the go to for a rewireable 6 pole plug in ceiling rose solution. Incorporating the trusted Wieland GST 18i connectors, Titan 6 is ideal for surface installations where final connection to the luminaire has look as minimal as possible

The socket fits onto any standard BESA box. Suitable for standard, dimmable, or specialist lighting applications. The plug latches into place with a satisfying 'click' and the decorative cover, secured with a simple quarter twist, provides the minimalist look. The plug is also designed to look smart enough by itself and can be used without the cover if required.

- Matt black or Matt white finish options
- 6 pole for all dimming and emergency wiring options
- Large capacity terminals 2.5mm
- Suitable for on load connection/disconnection of lighting
- Easy twist lock architectural cover
- Diameter of cover matches diameter of BESA box for a sleek look
